## PROFILE SUMMARY

Full-stack software engineer with 1+ year of experience who owns features end to end — Next.js/React/TypeScript on the front, Node.js and Firebase Cloud Functions behind it. Currently a Software Development Engineer at Amrut AI, building conversational AI agents on a multi-provider LLM stack (OpenAI, Gemini, Vertex AI) with vector search, plus SEO audit engines wired into Google Search Console and Analytics. Has pushed 1M+ URLs through data pipelines into a Firestore-to-BigQuery warehouse and shipped Stripe billing. Strong Java and data-structures footing, with real care for clean, modular code and sound system design.

## EXPERIENCE

### Software Development Engineer

Aug. 2025 – Present

*Amrut AI*

*Noida, Uttar Pradesh*

- Engineered a conversational AI agent on a multi-provider LLM stack (OpenAI, Google Gemini, Vertex AI) with SSE streaming and a 50+ tool registry, grounded in Vertex AI semantic search over 400K+ vector embeddings returning results in under 100ms.
- Built a multi-stage AI SEO audit pipeline (PageSpeed/Lighthouse, Core Web Vitals, GPT-4o enrichment, competitor content-gap analysis) and integrated Google Search Console, Analytics, Keyword Planner, YouTube, and Business Profile via multi-account OAuth.
- Developed 40+ REST endpoints on Firebase Cloud Functions (Node.js, Express, TypeScript) and 20+ Next.js/React dashboard tools with Redux Toolkit Query, plus Stripe-based subscription, pricing, and token-metering workflows.
- Designed large-scale data pipelines processing 1M+ URLs and a Firestore-to-BigQuery analytics warehouse with clustered views; hardened public routes with App Check anti-scraping, a Cloud Armor WAF, and per-user/IP rate limiting.

### Software Engineer Trainee

Jun. 2025 – Aug. 2025

*BillClap*

*Noida, Uttar Pradesh*

- Worked as a backend engineer building REST APIs and server-side workflows with Node.js, Express, and Next.js across the company's BillClap and TripClap products.
- Contributed to core product features, Google and third-party API integrations, and database design, improving backend reliability and supporting new feature rollouts in an Agile team.

## TECHNICAL SKILLS

**Languages:** Java, JavaScript, TypeScript, SQL

**Frontend:** React.js, Next.js, Redux Toolkit / RTK Query, Tailwind CSS, HTML5, CSS3

**Backend & APIs:** Node.js, Express.js, Firebase Cloud Functions, REST APIs, Serverless Architecture, Webhooks

**AI & LLM:** LLM Integration (OpenAI, Claude.ai, Google Gemini, Vertex AI), AI Agents, Vector / Semantic Search, Embeddings, RAG, Prompt Engineering

**Databases & Data:** Firestore, MongoDB, BigQuery, SQL / NoSQL, Data Pipelines

**Cloud, DevOps & Tools:** Google Cloud Platform, Firebase, Vercel, Render, Git / GitHub, CI/CD, Postman

**Practices & Concepts:** System Design, Scalable Architecture, REST API Design, Authentication (JWT / OAuth 2.0), API Security & Rate Limiting, Agile, SDLC

## PROJECTS

**ThinkFashion** | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT* | [GithubLink](#), [View](#)

Apr. 2025

- Built a full-stack e-commerce application with admin and user roles, product CRUD, cart and checkout, and JWT authentication with role-based access control.
- Developed a responsive React.js and Tailwind CSS interface backed by secure REST APIs on Express.js and MongoDB.
- Deployed the frontend on Vercel and backend on Render with a Git-based workflow for production releases.

**Wanderlust** | *HTML/CSS, JavaScript, Express.js, Node.js, MongoDB, CSS* | [GithubLink](#), [View](#)

Nov. 2024

- Designed a full-stack platform for hotel bookings and property rentals, featuring over 50 listings and 100+ user profiles.
- Implemented secure authentication, boosting account security, and improved platform responsiveness for a seamless user experience.
- Leveraged Git and GitHub for precise version control, facilitating seamless collaboration, Increased code integration efficiency by reducing merge conflicts during the project lifecycle.

## EDUCATION

**Greater Noida Institute of Technology**

Nov. 2021 – May. 2025

*Bachelor of Technology in Computer Science | 7.0 CGPA*

*Greater Noida, Uttar Pradesh*
